Project Manager – Tax Incentive

Reporting to the Director of Operations, this role will be a key position within the organization which provides clients with a variety of federal, state, and local tax credits and incentives. The position will entail a variety of responsibilities, including the calculation of tax credits and incentives, assisting in the evaluation and improvement of operational processes, providing tax and legal analysis and interpretation, providing exceptional client service, and interacting with team members in other functional areas.

The Project Manager - This role will be expected to evaluate various factors, such as client entity structures (such as, legal, operating, tax, and others), tax liabilities/capacity and pass-through considerations and industry, qualification requirements for the credits and incentives, and the other tax and non-tax considerations, in order to maximize the value Alphareresults delivers to its clients and their CPA. Tax Incentive Operations will possess strong written and verbal communication skills, be able to perform under tight deadlines, and act with integrity and professionalism.

The person in this role will work closely with and support a highly experienced team that knows the industry and has developed efficient methods and tools to help in project implementation.

Responsibilities

- Calculate various tax credits and incentives with supporting workpapers and documentation.
- Provide tax and legal analysis and interpretation of the tax credit and incentive programs served by the company.
- Communicate effectively and professionally with clients, governmental agencies, CPAs and internal team members.
- Provide support in other roles and functions as needed.
- Provide support to the Director of Operations for Alphareresults.
Assist in the evaluation of operational processes and aid in the development of new or improved operational processes.
- Effectively manage time and resources to ensure timely delivery of client projects.

Requirements

- Education: B.S. or B.A. in Accounting, Finance, Business Administration or related discipline. Advanced degree (Master's in Taxation/JD) and/or CPA designation strongly preferred.
- 5+ years Tax and/or Accounting experience
- Tax credit and incentive experience preferred, but not required
- “Big Four” public accounting and/or consulting experience a plus
